

The ACCA logo is a red square with the letters 'ACCA' in white, sans-serif font.

ACCA

The background of the top half of the page features silhouettes of four business professionals in a modern office setting. They are positioned in front of a large window with a grid pattern. The scene is lit from behind, creating a strong red glow. The silhouettes show a man on the left talking on a mobile phone, a woman in the center holding a tablet, and two other individuals on the right engaged in conversation.

**A CAREER IN
ACCOUNTANCY
WITH ACCA**

> A GUIDE FOR PARENTS

> WHY STUDY ACCA?

What is most important to you about your child's future? That they are successful and have job security? That they are well respected? Or that they are rewarded with a challenging role and good salary?

A career in accountancy offers all of these and more.

Whatever their ambition, your son or daughter can follow their dreams because accountants can be found in every industry and sector – including the ones which are of interest to your child. No matter where they want to work, they will be in worldwide demand with employers because we are respected and recognised globally. So they can work in an industry and place that suits them – and change to another later in life if they so choose.

The ACCA Qualification syllabus is broad enough to offer them flexible career options.

> **ACCA is an investment in your child's future**

> WHICH LEVEL SHOULD THEY START AT?

We offer different entry levels to start your son or daughter's journey in accounting and finance. So whatever your child's education, they can start with us at the right level to suit their ability.

What is their level of education?

Where can they start their journey with ACCA?

NO QUALIFICATIONS

Foundation level

SCHOOL LEAVER

Foundation level or ACCA Qualification if they have the equivalent of three GCSEs and two A-levels in five separate subjects.

GRADUATE

ACCA Qualification

> FOUNDATION LEVEL

If your son or daughter does not have the minimum entry requirements to start at the ACCA Qualification, they can start studying ACCA at our Foundation level. It's the perfect place to begin for those starting out in accountancy.

Our Foundation-level qualifications – Foundations in Accountancy – include certificates and a diploma that can be achieved along the way. So as your son or daughter works their way through the awards, they'll have proof of their hard work – keeping them on track and motivated.

Foundations in Professionalism

Foundations in Professionalism is our online, interactive module that will help your son or daughter understand what it means to work and act professionally and ethically. They will need to complete this module in order to receive the certificates for the Foundation-level awards they complete.

> THE ACCA QUALIFICATION

If your son or daughter has the equivalent of three GCSEs and two A-levels in five separate subjects including maths and English, they can start their journey with us at the ACCA Qualification. It's your child's route to becoming a fully-qualified professional accountant.

The ACCA Qualification opens up a whole world of opportunity – by providing them with skills and knowledge relevant to any business. This means they'll be able to work in any accountancy role in any organisation – so they'll always be in demand.

And if they are a graduate, they may be exempt from some or all of the first nine exams (called the Fundamentals level) depending on their degree subject. This means they will have a faster route to becoming an ACCA member.

Practical Experience Requirement (PER)

A key part of gaining ACCA membership is getting three years' relevant practical experience in the workplace. This experience will mean your son or daughter will be fully prepared for a challenging career as a professional accountant.

Professional Ethics module

Professional ethics is at the heart of the ACCA Qualification. The Professional Ethics module underpins your child's studies by introducing them to a range of ethical ideas so that they will act professionally in the workplace.

> FLEXIBLE OPTIONS

ACCA offers flexible study options. So your son or daughter can study ACCA full-time or study part-time around full-time work. They can learn with a tuition provider or choose distance learning.

If they study with a tuition provider, we have a global network of tuition providers who are approved by us – and who meet our high standards. These are called Approved Learning Partners (ALPs) and there's a full list of them on the ACCA website.

BSc degree from Oxford Brookes

If they are not a graduate, the ACCA Qualification gives your child the opportunity to achieve a BSc degree from a UK university. All they have to complete is a report as well as their ACCA exams – it's as simple as that. So they'll be awarded a degree by Oxford Brookes University without doubling their workload.

> ACCOUNTANCY - A CAREER TO BE PROUD OF

“

ACCA offers a well-established exam scheme and has an outstanding global reputation. The qualification offers a reliable professional status within the industry, both at a local level and internationally. Being equipped with the ACCA Qualification accelerates the growth in your career. It provides you with a solid technical foundation, international mobility and the highest ethical standards.

”

Kelly Chan, financial controller
Moët Hennessey Diageo Hong Kong Ltd

“

I felt that accountancy was a great way for me to get involved in business and ACCA would provide me with a unique qualification that would deliver a broad knowledge base, which is important as I wanted to work in Industry. The ACCA Qualification has opened many doors to roles that would not have been otherwise possible.

”

Howard Millar, chief financial officer and deputy chief executive
Ryanair Holdings plc, Ireland
